The video link with this blog is the full concert from the December 14-15, 2007 performances. It is 72 minutes long, so get a cup of christmas cheer, good computer speakers or headphones, and chill for a little more than an hour. As previously stated (see December 23) it will only be available on TQS. I hope many of you will watch it - it was a lot of fun to put together. The video is a compliation of all four performances. Also, be sure to visit [Kat Bowser's webpage](#).

Several videos included in the show feature some amazing quilts. I'm thrilled that I was able to find a way to create chapters so you can jump forward song to song - yeah for learning new things - see the illustration below.
