Three Sisters in La Veta - Part 3

It seems Skippy is trying to make up for the trouble he caused. It has been fun hanging out with these three terrific quilters who, as you can see, have GREAT fun and wonderful personalities. Much progress is being made on the Three Sister's new quilt and they are having a good time answering your questions.

In this video, Gail shares a bit about fabric painting. The paints Gail are talking about are Genesis Creations (called colour) which is an Australian product. Aloe Vera gel is added for a better consistency. [Email Helen](#) to find out more about Genesis Creations and she can help you obtain them once she returns to Australia.
