Two Books Now Available - Suzanne Marshall and Ricky Tims

---

Suzanne Marshall (TQS guest on [Episode 203](#)), is the author of the new applique book, Adventure and Applique (AQS). If you would like an autographed copy, please [email her](#). The forward in the book was written by Ricky. Remember, Ricky confesses that Suzanne was his biggest influence when he was getting started in quilting. Suzanne also has her wonderful patterns available. See Toad Boy from Episode 203. She has others as well.

Speaking of Ricky, Feathers and Urns (C&T Publishing), the first design compendium to the book Rhapsody Quilts, is also now available. There will be six compendiums and each offer the full-size freezer paper pattern of the cover quilt (in this case, Viva Violetta) and tons of related design options for you to create your own. You can find Feathers and Urns at your LQS. For autographed copies of Ricky's books, provide specific instructions for doing so when you visit his [online store](#).
