### A Walking Tour of La Veta

---

Capt'n John.--Stick with me for a walking tour of La Veta, CO. This is Ricky's Home and the town where the show is taped.

Next door to the Quilt Gallery is the La Veta School of the Arts. One of the Arts taught is welding. This sculpture is a mass of different kinds of welds. They use iron & aluminum and after each class the object d' art grows.

As you start down Main Street you see the museum which has some of the old buildings preserved.

There are a number of churches very close to each other. Some are old and some have interesting architecture. Join me tomorrow as we continue down Main Street.
