Midnight at the Oasis

Well - Guess what? Everyone might think that the place to be is at the studio - OH no! It is at the warehouse! Here is what a typical "sad" scene looks like after hours (of taping)and behind the scenes. Can you tell this is an internet adventure? We wonder how many laptops it takes to break the system.....as we hang out and share stories after hours - todays question was, favorite artist:

1. Bruce (far right)- Beatles
2. Gregory (next to Bruce) - Beatles and the Band
3. John (next to Gregory) - Stevie Ray Vaughan
4. Lilo (next to John) - not here to defend herself (we suspect it was Black Sabbath?)
5. Alex (front in jammies) - Beach Boys
