Happy Birthday Lightbulb

Today the proud residents of Livermore CA celebrate the worlds longest burning lightbulb - a strong 107 years old! Know one knows WHY this lightbulb has survived for so long, despite a move and a few power outages - perhaps it is because of a perfect seal and it's low wattage. What ever the reason - it continues to burn strong. Does your city have any "interesting" factoids we need to know about? Inquiring minds NEED to know!
