Episode 1504: Make it Special with Machine Embroidery

Photo by Gregory Case Photography

Alex and Ricky welcome artist and author [Jeanie Sumrall Ajeta](#) ([Episode 502](#)) back to the TQS studio for a look at some of her newest work, which marries machine embroidery with her trademark Kaleidoscope designs.

Jeanie, a former software engineer for Hewlett-Packard, explains how to select an image, print it on fabric, transform it into a unique design using her Kaleidoscope Kreator program, and then enhance it with machine embroidery.

In addition, Connie Flanders, Director of Education for [BERNINA USA](#), shows a quick-and-easy way to make a rag quilt (and more) using your serger.
