### Piece by Piece

---

Right at this moment I am sitting at Ricky's left hand side working on voice overs. A voice over are the words you hear when a show airs a field piece, a sort of narration to the story line. When "piecing" these segments together, everything has to be synched to fit with perfect timing. Thank goodness Ricky has his new control room (he called me from my office to join him).

Along with all the technical stuff, the set is coming into the studio piece by piece, literally. Here is Ricky fitting our Quilt Show Demo table into one unit. Come to think of it, this whole endeavor is like making a quilt. Many pieces joined as one, making a comfortable place to be in.

I'll keep you updated as much as I can.....
