### Your Current Project?

---

It seems appropriate that on the eve of taping series 400 (can you believe it?), I am grabbing a day or two to quilt. Here is a look at what I am currently working on, but WE want to know what YOU are working on! Please take a minute to snap a shot and up load it in your personal profile (did you notice that web guru Bob has given you more real estate to strut your stuff?) - then tell us [HERE](#) and we will take a peek at what's cooking in your quilting life! Don't be shy - lets have a virtual quilting bee this weekend. NOTE: If you use one of the first 12 slots, your image will turn up in the gallery - please use one of the last 6 Personal Photo slots (not the first 12) if the quilt is in progress - save the first 12 slots for the finished project.
