New Class! - Fabric Fancifications with Lauren Vlcek

Lesson 2 is Ready in the Classroom.

The new **Fabric Fancifications** class provides a fabulous foundation for simple, successful quilt embellishments.

Join **Lauren Vlcek**, co-author of *Fabric Embellishing: The Basics & Beyond*, as she guides you through a number of brilliant ways to embellish this quilt sampler which you will create as you follow along in the classroom. Included in this classroom are raw edge applique, couching, basic hand stitching, and basic bead embroidery techniques.

As an added bonus, anyone who submits photos of their work in progress will be eligible to win a signed copy of Lauren's quilt. Each week, as you follow along, you can submit a photo of your work. This submission will enter you into a drawing for the **Fabric Fancifications** sampler created and signed by Lauren.

To make your supplies easier, Lauren has created a TQS Classroom Companion Embellishments Pack designed to accompany the class. This pack includes small amounts of most of the embellishments needed for the project. This pack is not a complete kit for the classroom project. Students will need to provide quilting supplies and sewing threads from their own stash. The pack is available from Lauren for \$35. [Click here to purchase the Companion Pack.](#)

Visit the classroom to watch Lauren's Introductory Lesson which is free to all TQS members. This lesson outlines what you'll need to complete the class including a Fabric Fancification's shopping list.

Classes begin on October 30 with **Lesson 1 - Raw Edge Applique**.

Lesson 2 is ready now. (People in Houston loved the sampler and were excited about the class.)
