## Special Effects with Color - Lesson 1

---

There's something exciting happening in the TQS Classroom! **Special Effects with Color**, a new class with designer and author Christine Barnes, is available **now** for ALL TQS Members.

In Lesson 1, Christine illustrates how value - the lightness or darkness of color - can be used to create the illusion of depth and to establish the design of a block or quilt.

**Great News!** Christine will be giving away one of her books, **The Quilter's Color Club** (from C&T Publishing), and one of her color wheels to two lucky TQS members.

To be eligible to win a book and a color wheel, just go to Christine's classroom, click the  button, and post photos of your work as you follow along in class.

You can visit Christine's website by [clicking here](#).
