Quilt National '13 Comes to the Science and Discovery Center of Northwest Florida

Quilt National '13 is open from January 9 - February 20 at the [Science and Discovery Center of Northwest Florida](#). Here's what Quilt National says about its exhibit:

The works in a Quilt National exhibit display a reverence for the lessons taught by the makers of the heritage quilts. Many of the works hold fast to the traditional methods of piecing and patching. At the same time, however, the Quilt National artist is intrigued by the challenge of expanding the boundaries of traditional quilting by utilizing the newest materials and technologies. These innovative works generate strong emotional responses in the viewer while at the same time fulfilling the creative need of the artist to make a totally individual statement.
