How to Make a Quilt Label

Many times at quilt shows, you'll see antique quilts made by the ever-popular, "**unknown quiltmaker**." (Maybe I'll change my name and lay claim to all those quilts.) TQS doesn't want this to happen to you. TQS Member and award-winning quiltmaker, [Margo](#), has created a fabulous tutorial on how create a quilt label using your printer, some fabric, and some freezer paper. As she notes, "It will probably take you longer to read these instructions than it will take to make a label..."

Simply [click here](#) or on the PROJECTS tab in the navigation bar to discover how simple it is to create a label for your award-winning quilt.
