Yes, You Are Seeing Spots!

---

Give your next quilting project a pop with colorful dots from the [Felicity](#) collection by [P&B Textiles](#).

This charming new line works equally well in both contemporary and traditional quilts, and is sure to bring a bit of bounce to your next creation.

We used Felicity to make our quilting "grab-and-go" tech bag. At a finished size of 9" x 6" x 2", the bag is roomy enough for scissors, several spools of thread, and other small stitching items.
