Camera Chic

Heading off to Houston for the quilt show soon? Do you have a creative strap for that camera? This week's quick project from [We All Sew](#) is an adjustable camera strap that is much gentler on your neck AND it's much more attractive.

Using a variety of fun fabrics from your stash, you can whip this up just in time to hit the show floor.

[Make It](#)

Come visit the **TQS booth (1016)**, 'cause we have lots of quilt artists stopping by.
It's the perfect opportunity to grab a selfie with your favorite star quilter.

Don't forget the Meet-n-Greet at 1:00 pm daily! Meet old friends and make new friends.
