Trash to Treasure

---

[Story Submitted by: RickyTims](#)

I started this project the summer of 2004, using fabric I had on hand but didn't like, thinking it would probably end up in the trash. Well it did work and I was stuck with what I was now calling the Ugly Quilt. I had help picking out boarder fabrics and hoped while I hand quilted it, I would start to like it. No such luck until, I put it through the washer and dryer for the first time. I spent a lot of time on the Ugly Quilt and was eager to see it clean and dry. When I pulled it out of the dryer the fabric had bled through the backing and all the stitches were red/orange, I was sick!! I put it back through the wash and said a prayer. It came out beautiful - From Trash to Treasure!!
