The Bluebirds are ready for SPRING!

---

[Story Submitted by: Margo](#)

We don't have any pets any longer, but I do have two bird boxes for wild birds in the yard. We almost always have 2-3 clutches of Bluebirds in one box, and the other is up for grabs to whoever gets it first. Sometimes wrens, sometimes chickadees, sometimes nuthatches. From what I can tell so far it looks like there will be Bluebirds in both boxes this year, and the start of nest building is always a promise that warm weather will soon be here!
