Available in 7 luscious colors, and all but the natural are hand-dyed!

Also seen on the show- the Halo 8D Portable Magnifying Lamp by Daylight makes it EASY to see those stitches!

The Halo 8D Magnifying Lamp makes handwork *much* easier, even if you don't require it. You get smaller, neater stitches with a magnifier, and seam ripping becomes a snap with one. No more accidental holes where we cut the fabric thread instead of the sewing thread.

This clever lamp is also portable! It folds up to be small and flat (about 12.5" x 6" x 2"). You can go to a class, friend's house, or retreat, just unfold it and plug it in wherever you are!
