BERNINA: Longarm Quilting for Beginners - Part 3

Part 3 in BERNINA's series of *Longarm Quilting for Beginners* deals with threading and basic techniques.

A person new to using a longarm is always interested in the threading of the machine. Some longarms are a little different from others. Here they share with you how easy it is to thread their BERNINA Q Series machines. Both the Q 20 and the Q 24 thread the same way. The threading is all in the front, so there is no need to go to the back or reach all the way to the back.

Part 2 is a discussion about the frame and rails.

Part 1 gave you some things to think about if you decide to purchase a longarm on a frame. The later blogs will touch on basic techniques, feature highlights of the BERNINA Q Series and BERNINA Q-matic Longarm Quilting Automation System.
