Lesson 2—Temperature, 8" x 8"

Make the block using all warm **or** all cool fabrics (your choice) in the values shown above.

From the medium fabric, cut 1 square, 4" x 4".

From the dark fabric, cut 1 square, 4" x 4". Cut the square twice diagonally to make 4 large triangles.

From the light fabric, cut 4 rectangles, 2" x 4", for the background. Lay the light rectangles in the background areas first, then lay the large triangles over them. (Much easier than cutting 8 triangles for the background!)

From the medium-dark fabric, cut 4 squares, 2" x 2", for the corners.

For "extra credit," make the block again, using a mix of warm and cool colors.
