### How Do I Pick A Show?

Here are two ways to pick a show you want to see.

Show List

Search Shows

**Show List:** Go to the Menu and hover over "Watch" and select "Show List". You will see a list of show names and artists in each of our series. The current Series 16 is not open, but every other show in Series 1-15 is ready for you once you sign in.

1Go to Show List. Look at the shows in each series. Pick a series you want to know more about. Click on the series.

2Now you will have more information on each show in that series. Pick the show you want and click.

3Now you will learn even more about the show and you can start the video.

4Each video is broken into chapters. Is there something special you want? Just click on that chapter!

**Search Shows:** Go to the Menu and hover over "Watch" and select "Search Shows".

1Now you will see a handy list. You can click on the column title and sort by Show Number, Artist, or Technique.

2Even Faster?? Type what you want to find in the Search Box in the upper right of the table. You don't have to type much. Searching begins as you type, such as "fus" searches for "fuse" or "fusible", "appl" for applique. It works!!

3Then click on the Show Number in the far left column and you will go to that show.

4Find the chapter with the information you want and click. Cool, right?
