TQS Puzzle - Positive Energy 4 - Karen Eckmeier

This week's puzzle, **Positive Energy 4** - was created using Karen's "layered Curves and Peaks" technique.

"Layered Curves" (aka Layered Waves) makes curves faster and easier to do than curved piecing and unlike the raw edges in fabric collage, the edges in "Layered Curves" are neat and tidy. It is also the subject of her books ["Layered Waves"](#) (2009) and ["Wearable Waves"](#) (2012). Dramatic angles and points can be also be made using this technique, which contrast beautifully with the flowing lines.
