TQS Puzzle: "Gaudi in Barcelona" by Olga Gonzalez-Angulo

---

Olga Gonzalez-Angulo created an appliqué masterpiece based on one of Antoni Gaudi's amazing architectural designs in her quilt **Gaudi in Barcelona**. Every little detail has been meticulously recreated. It is a showstopper. And, since we know Olga is very good friends with Rosa Rojas, we have a sneaking suspicion this quilt just might have been created with Appliquick tools.

Drink in all the details of **Gaudi in Barcelona**. It was on display at the Houston International Quilt Festival 2019.
