On the Set for Ep 1306 with Sheila Frampton Cooper & Angela Walters

Although she's been making art all her life, LA native **Sheila Frampton Cooper** is relatively new to quilting. That hasn't stopped her from making a splash, as evidenced by the award-winning quilts she shares in today's fun- and info-packed show.

In addition, Sheila **demonstrates her clever technique for piecing curves without pins** and offers loads of tips and suggestions for machine quilting, including how to tackle multiple thread changes.

Also on hand: machine quilter, author, and popular blogger **Angela Walters**, who shows how she gives **traditional quilting designs a modern twist** and determines strategies for quilting the negative spaces in those Modern (and other) Quilts.
