On the Set with Sarah Ann Smith

Sarah Ann Smith, a TQS member from the very start, taught herself quilting while working in Bolivia using *Quilter's Newsletter* magazines.

In this show, Sarah Ann teaches us how we can achieve realistic results for recreating photographs using a variety of techniques. She also demonstrates using threadwork to enhance your quilt.

Also in this show, Ricky demonstrates two techniques for sewing a perfect mitered border corner. He follows this up by offering tips for avoiding puffy or tapered borders and how you can use this same process to create a multiple border mitered corner.

Watch Sarah in [Show 2508](#), when it debuts Sunday, October 6, 2019.
